

New Life Foundation: The Heart of the Blockchain Initiative

New Life Foundation leverage blockchain to revolutionize specialized medical care access worldwide. We use Solana for transparent donations to fund specialized medical treatment for patients in need.

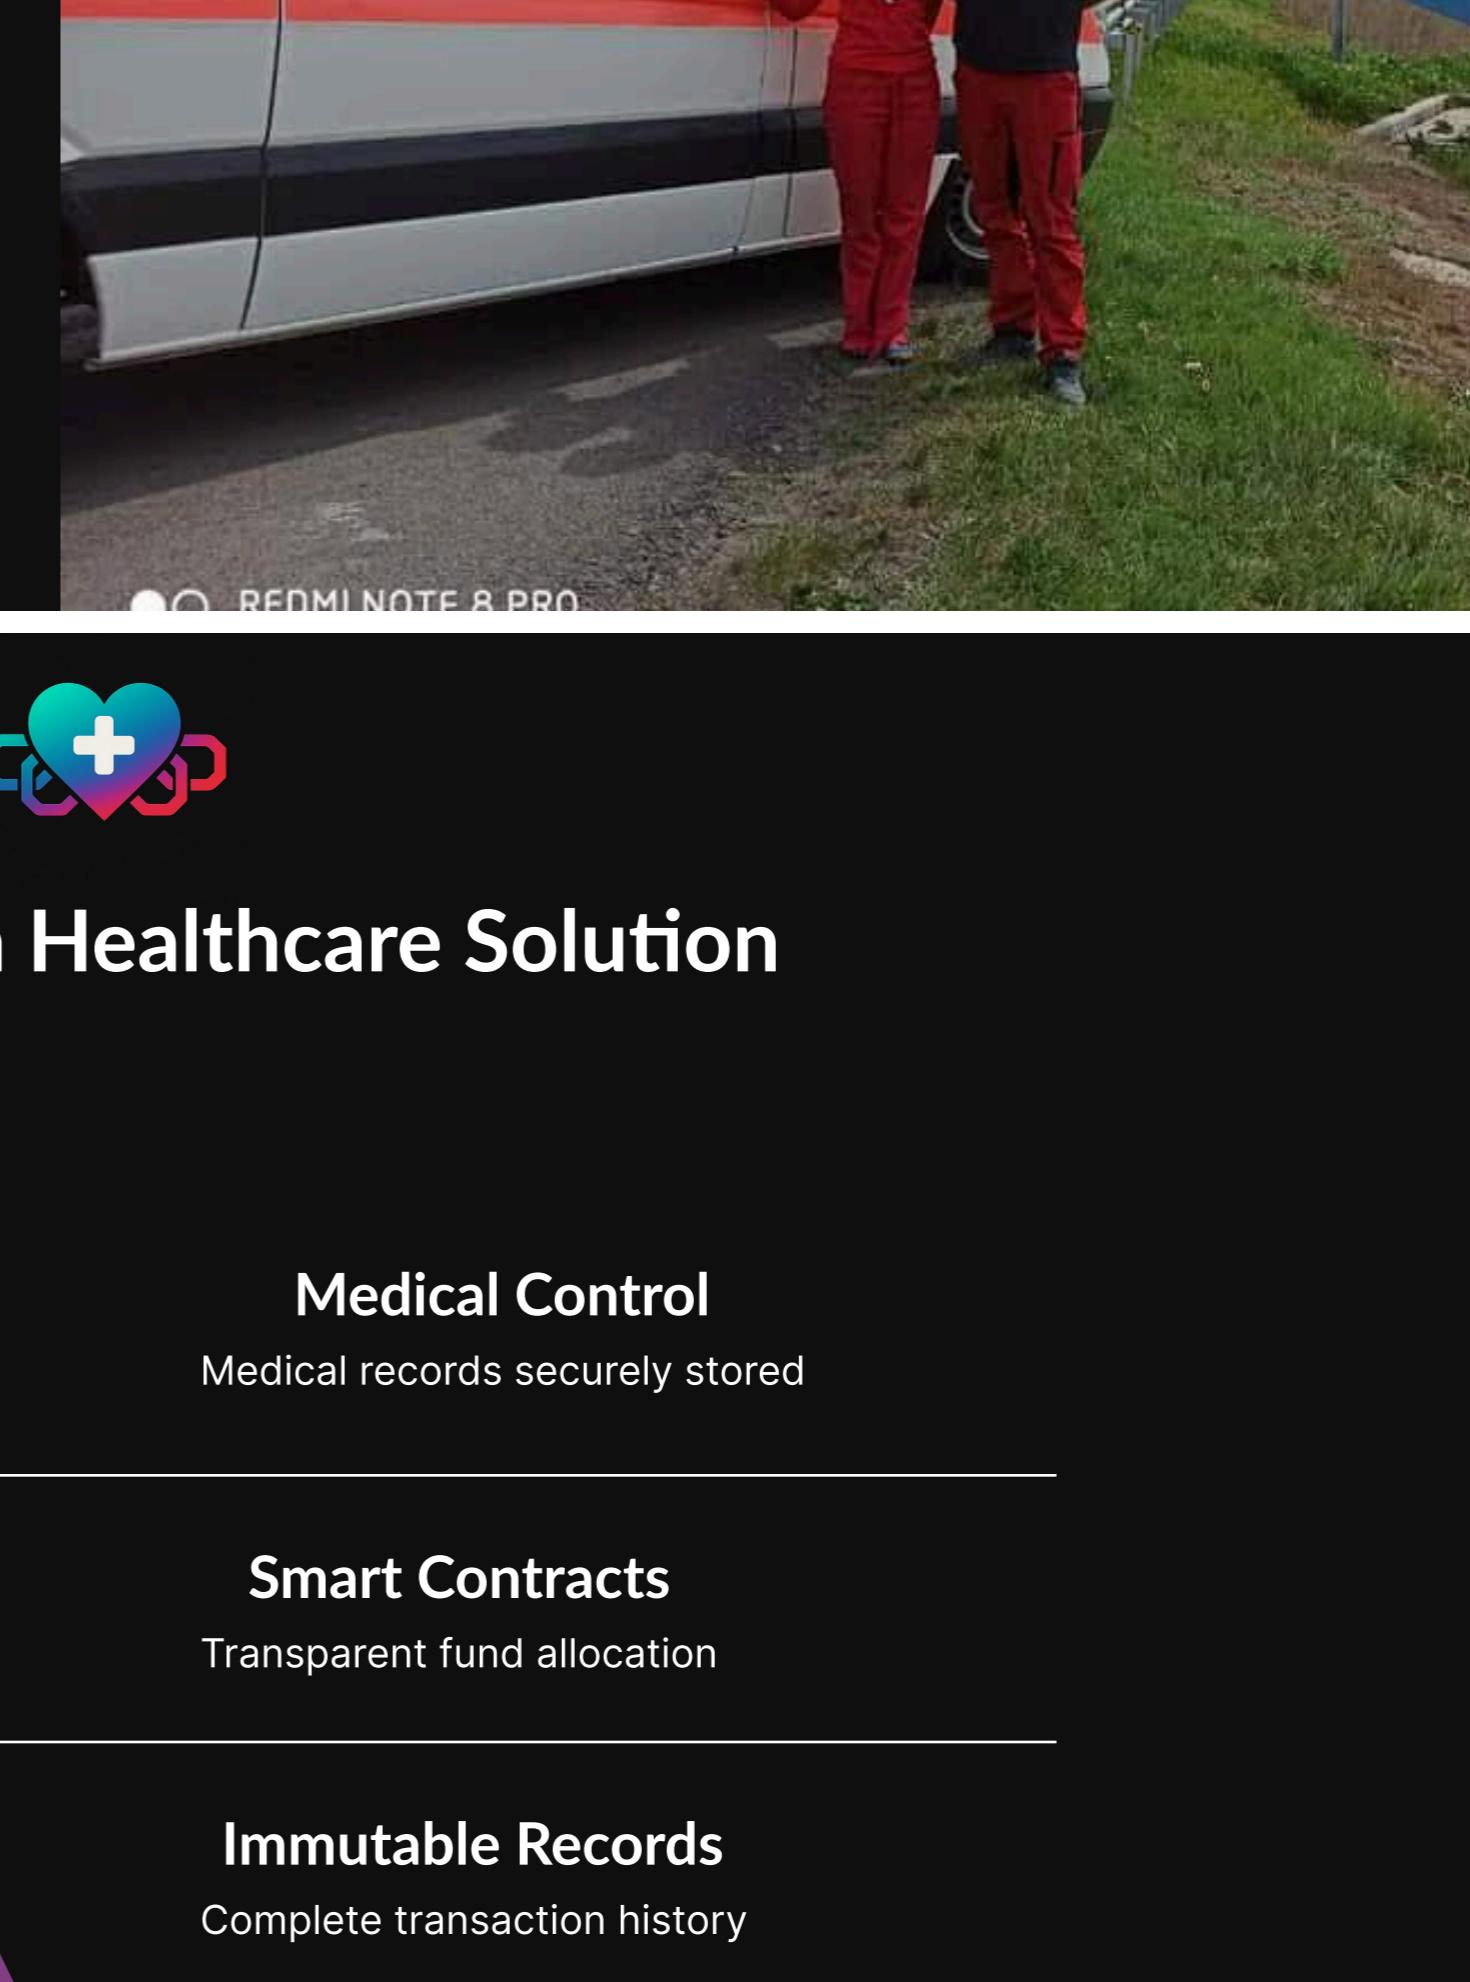

About Our Foundation

Established in 2020 with \$3.5M in initiate funding, 30+ healthcare partnership and served 1200+ patients across 15 countries.

Core Values

- Transparency
- Accessibility
- Innovation
- Compassion

Our Blockchain Healthcare Solution

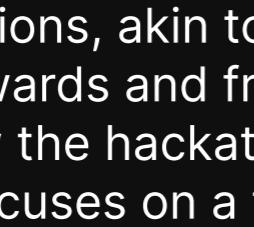

Medical Control
Medical records securely stored

Smart Contracts
Transparent fund allocation

Immutable Records
Complete transaction history

Global Compliance
HIPAA and GDPR standards

Our Solution achieves 99.97% data integrity through distributed ledger technology

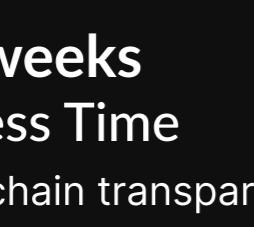

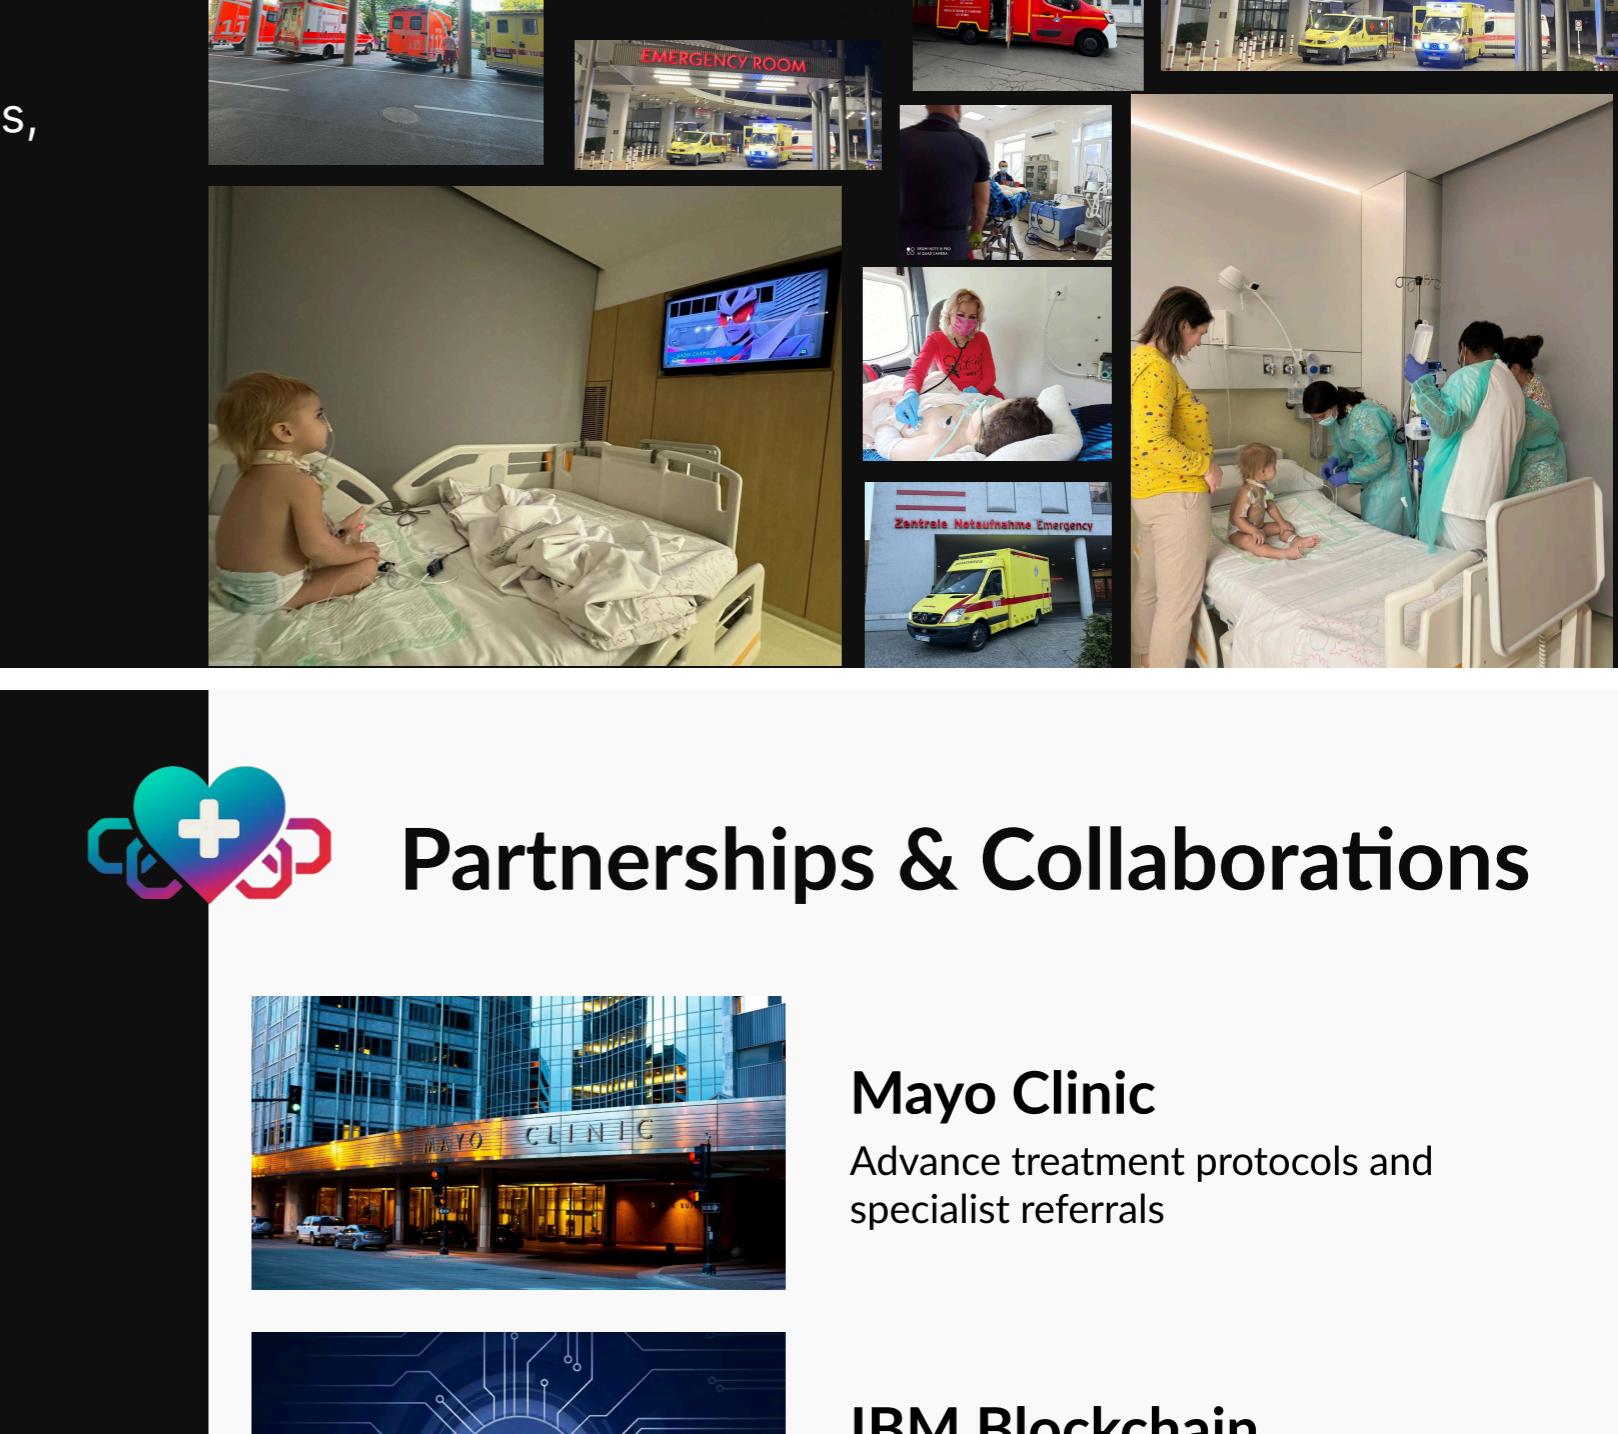

Programs and Services

International Treatment
Coordinating specialized care globally.

Smart Financing
Blockchain-based medical funding solutions

Treatment Tracking
Real-time updates for donors and patients

Credential Verification
Blockchain-verified medical qualifications

Our services' efficiency is proven by years of expertise and many saved patients, including children, who were given no chance by local doctors or some overseas clinics. This efficiency will also be captured in NFTs, a potential game-changer for marketing, alongside other advantages. For growth and user acquisition, we'll use a mobile app and Telegram integrations, akin to "tap to earn," offering token rewards and free consultations, but this will follow the hackathon. The hackathon focuses on a transparent donation platform and NFTs.

Partnerships & Collaborations

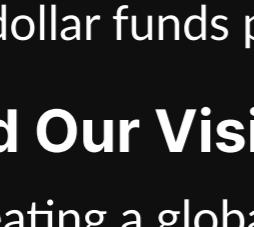

Mayo Clinic
Advance treatment protocols and specialist referrals

IBM Blockchain
Technical infrastructure development implementation

World Health Organization
International care standards and global healthcare access

Join Our Initiative

Get Involved

Multiple ways: donate, volunteer, or partner with us. Every contribution makes a difference.

See Your Impact

Receive blockchain-verified impact reports. 94 cents every dollar funds patients care.

Help Build Our Vision

Join us in creating a global blockchain healthcare network for all.
